Membership Benefits

About the ISSF

The *Inventors Society of South Florida, Inc.* was formed in 1982. The membership boasts many successful inventors. This group's mission is to create a forum that fosters creativity, free thinking and education that will further our members' innovations.

The monthly meetings include guest speakers, networking and Q/A. There are field trips and educational symposiums to help inventors protect and commercialize their ideas. Also, members benefit from the monthly newsletter that includes tips, publications, informational websites, articles and notices of inventor events.

The ISSF has an Internet presence at www.InventorsSociety.net. Here you will learn about our recent speakers, peruse a list of coming events (mostly within the USA), and access our monthly newsletter including archives.

ISSF Website

Visit www.InventorsSociety.net for details on recent speakers and gems of wisdom they offered. Also,

- Access our newsletter archives. (Members have full access via password; non-members can open newsletters older than one year.)
- Check out our lists of upcoming events for inventors and Florida links to event information.
- Peruse a list of historic events since our inception in 1982.
- Enjoy photos from recent expos.

Inventors News

The ISSF newsletter, *Inventors News*, points the reader to useful sources: an article, an expert, a book, an inventor's experience, and coming events. Every inventor, regardless of where they are in their invent-to-market process benefits from each newsletter. The newsletter content reflects inventor requests for information.
